MADE-TO-MEASURE
SHUTTERS

YOUR WINDOWS, DRESSED TO IMPRESS

S:CRAFT shutters provide a simple way to transform your home, inside and out. Whether you have a country cottage or contemporary townhouse, our shutters can take your home from finished to fabulous.

We've been providing shutters for over 20 years, developing a collection of premium products that add value to your home. Not only are they stylish, they're practical too, letting you control light levels and privacy. And as every shutter is made-to-measure, there's something for every window and door, whatever the size or shape.

Our aim is to help you see shutters in a whole new light.

ADJUSTABLE LOUVRES LET YOU AVOID SUN GLARE WITHOUT BLOCKING OUT THE LIGHT

LIVEN UP YOUR LIVING ROOM

Curl up in a bright sunny spot with a good book. Or shut the world out and snuggle up with your family on a cold winter's night. Whatever the time of day or year, S:CRAFT shutters offer a practical solution to light, privacy and temperature control.

The clean, crisp lines of shutters open up any space to create a light and airy feel. Or simply close the louvres to help make your room cosy. Choose from a range of styles in a wide range of colours and materials.

And S:CRAFT shutters aren't just for windows. Use them as bi-fold doors on a track system to partition large open-plan rooms. Solid panels are a perfect choice for a more rustic and traditional look. They provide privacy when you want it most. Then stretch out on your sofa and admire the view. Your neighbours will be doing just that from the pavement!

SHUTTERS PROVIDE INSULATION IN WINTER AND SHADE IN SUMMER

Bay windows dressed with shutters make a stunning style statement

BREATHE LIFE INTO YOUR KITCHEN

Steam, roast and bake in a kitchen flooded with light, or create an ambient atmosphere for evening entertaining. And if your cooking doesn't impress, your S:CRAFT shutters certainly will.

Shutters are the ultimate choice for kitchens. Our Java range is ideal for steamy rooms as it's 100% waterproof. That means your shutters won't get damp or soak up any cooking odours. Easily open your windows and adjust the louvres to allow air-flow, while still protecting your privacy from the outside world.

EASY TO WIPE AND KEEP CLEAN

Café style provides privacy at street level while still letting the sunshine in

CHOOSE YOUR STYLE, MATERIAL AND COLOUR TO COMPLEMENT YOUR KITCHEN

SHUTTERS HELP KEEP CONSERVATORIES COOL IN SUMMER AND WARM IN WINTER

MAKE THE MOST OF YOUR DREAM CONSERVATORY

Put your feet up and admire the garden, enjoy dinner with the family or keep the kids entertained. S:CRAFT shutters will make your conservatory comfortable all year-round, whatever you use it for.

Adjustable louvres provide shade in summer and insulation in winter. Have them open or closed in just the right places to get your lighting just the way you want. Our robust manufacturing process uses premium materials to create incredibly strong shutters that won't fade, bow or warp with extreme temperature changes that conservatories can face. You can easily dress your windows and French doors and we also have a solution for ceilings with our Fiji range of shutters.

SHUTTERS TURN A CONSERVATORY INTO A YEAR-ROUND SPACE

Shutters can also be used for French doors as well as conservatory walls

BRIGHTEN UP YOUR BATHROOM

Take a refreshing shower in a bright and sunny room or dim it down for a relaxing bath with glowing candles, no matter what the time of day. You can have the best of both worlds with S:CRAFT shutters.

S:CRAFT shutters provide everything you need for the bathroom. Opting for split level louvres means you can operate the top and bottom sections independently. So, you can keep the bottom closed to protect your privacy, while keeping the top open to let light in. fluttering in the breeze to spoil that perfectly relaxing 'you' time.

SPLIT TIER SHUTTERS PROVIDE PRIVACY WHERE YOU NEED IT MOST

THE JAVA RANGE IS 100% WATERPROOF, MAKING IT IDEAL FOR HUMID ROOMS

COMPLEMENT YOUR WINDOW SHUTTERS WITH STYLISH WARDROBE DOORS

CREATE TRANQUILITY IN YOUR BEDROOM

Your bedroom is your sanctuary after a busy day. A dark and quiet room is also crucial for a good night's sleep. Cue S:CRAFT shutters! Combined with our room darkening Honeycomb blinds, you may just have the best night's sleep of your life… every night.

Shutters are the ultimate window covering for privacy, light and temperature control. You can even integrate with a room darkening blind option to minimise light seepage, or combine them with a curtain or voile to soften the look. Because shutters are cordless, they are safer for children's bedrooms. And why not complement your window shutters with S:CRAFT shutters fitted as by-pass wardrobe doors?

SHUTTERS ARE CORD-FREE, THE SAFEST CHOICE FOR KIDS' ROOMS

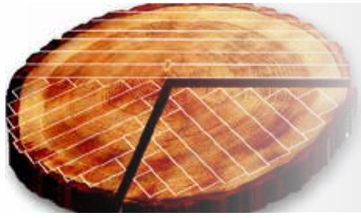
Colour match your shutters and décor with our custom colour option

WHY CHOOSE S:CRAFT SHUTTERS?

S:CRAFT shutters are more than just a window covering. Their clean lines and smooth finish bring together practicality and style perfectly. They look stunning from the inside, and smart from the outside too! They'll add value to your property and have the neighbours swooning from the pavement! And no matter how often you change your décor, our timeless shutters will fit right in, whatever your style.

Ultimate light control

Adjustable louvres in a choice of widths can be independently operated to get the light just right in your space. Close louvres where there's glare, and keep others open to keep the room bright.



Increased structural Integrity

Our wooden louvres are made from quarter sawn timber, resulting in a smoother surface due to less distinct grain. Decreased expansion and contraction on the plank's width and minimising twisting, and warping resistance.

Insulation

S:CRAFT shutters keep you cool in summer and help retain heat in winter, helping you save on your energy bills.

Low maintenance

S:CRAFT shutters are quick and easy to clean and offer a virtually maintenance-free existence – excellent for dust allergy sufferers!

Made-to-measure for the perfect fit

Mix and match ranges, styles, colours and louvre sizes to suit your needs. And if you have an unusual shape, we've got that covered too. The possibilities are endless.

Premium quality built to last

All our wooden shutters are made from resilient hardwood, and the timber used to produce our shutters is stored in climatic zones for six months and kiln-dried twice during this time, for a quality and finish of wood that's built to last for many years!

Manufacturer's warranty

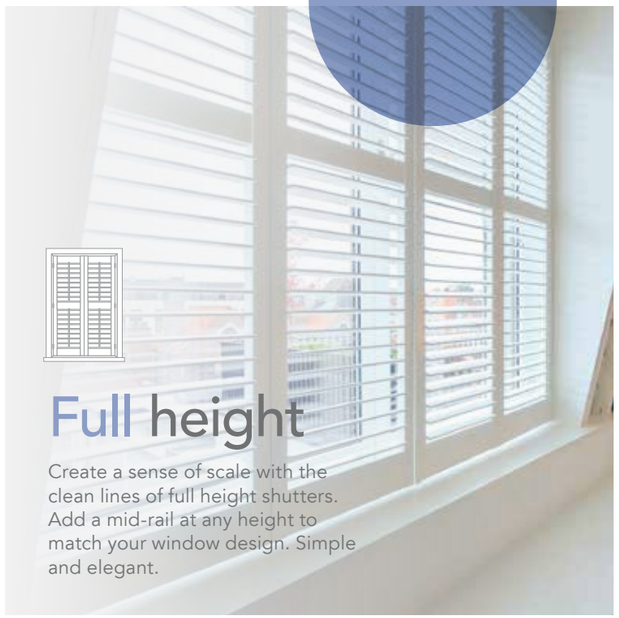
S:CRAFT shutters carry a manufacturer's warranty that is passed on to our retailer's, it covers structural and hardware defects. Just look for the quality mark on the shutter frame, so you know you've received a genuine product.

Quality Assured for peace of mind

S:CRAFT are proud members of the British Blinds and Shutters Association (BBSA), ensuring high standards of product, service and fair trading.

A STYLE FOR EVERY WINDOW & DOOR

Shutters are the most versatile of window coverings, providing a style solution to suit all properties. No matter the size or shape of your windows, we're confident there is an S:CRAFT shutter to match.



Full height

Create a sense of scale with the clean lines of full height shutters. Add a mid-rail at any height to match your window design. Simple and elegant.

Tier-on-tier

Similar to the look of a full height shutter but split in two. Tilt the top and bottom half independently for complete control of light and privacy.

Café style

Add a little classic charm to your street-facing rooms. By only covering the bottom half of your window they protect your privacy while allowing plenty of light in. Stylish and functional.

Track & Doors

The stability of a track lets you combine multiple panels to create stunning room dividers and wardrobe doors. Choose bi-fold or by-pass to open your panels in one smooth action.

Solid Panel

Only available in our Fiji range, solid panels give a traditional finish to your windows. When closed they block out light and draughts. A classic look for period properties.

Bay Windows

Transform beautiful square and Victorian bay windows with shutters. Choose from full-height, tier-on-tier or café style shutters for an elegant look, inside and out.

French Door

S:CRAFT shutters are made to your exact specifications. That means we're able to create cut-outs around French door handles. Perfect for conservatories.

SHAPED TO MATCH YOUR WINDOWS

Fun portholes, grand gable ends, and elegant arches needn't be left out! Our Fiji and Java ranges can be crafted to fit virtually any curved or angled shape. That means you don't have to compromise on the style you want.

Curved

S:CRAFT shutters can match almost any radius to complement your architecture. So, you can show off your statement windows while enjoying all the other benefits shutters bring

OUR RANGE OF PREMIUM MATERIALS

S:CRAFT shutters are available in different materials. The range covers premium MDF and waterproof ABS, stylish hardwood and practical aluminium. Materials that stand up to the daily wear and tear of a family home. Or choose from our premium hardwood range for a touch of luxury. There's something to suit every taste and budget.

Antigua

Engineered Wood Composite (EWC)

This popular shutter range is both elegant and hard-wearing. Antigua is our EWC range, made from a combination of a specially formulated moisture-resistant MDF with a laminated wood core for the ultimate damage resistance and structural integrity. The high-quality, wood composite is covered in a patented polypropylene (PP) coating with a UV inhibitor, giving extra protection against scratching, chipping, staining and heat damage. The wood used to produce the MDF is sourced from sustainable plantations in Australia, New Zealand, Chile, and the MDF used has extremely low formaldehyde E0 rating.

Bermuda

ABS and Engineered Wood Composite (EWC)

Bermuda is a hybrid of Java and Antigua, featuring robust MDF frames and panels with hollow, lighter ABS louvres. Inside each louvre shell is a hidden structural support system inspired by the design of the wing spars of an aircraft. The exclusive reinforced design creates a louvre that is substantially stronger and more rigid, and creates the neatest slat closure. Each louvre undergoes multiple sanding and painting sequences for an impeccable finish.

Cuba

Premium Hardwood

Cuba blends premium hardwood shutter panels with frames made from a eco-friendly engineered wood composite (EWC), for a more accessible and luxurious range of wood shutters. The panels are custom crafted from 100% hardwood using premium quality timbers from qualified sustainable sources. The specialised hardwood makes the shutter panels lighter allowing multiple hinged panels, which are mounted to robust EWC frames and make this range an ideal solution for large expanses.

Java

100% Waterproof ABS

Our most robust range of shutters is made from ABS which is very strong and is also used to make motorcycle helmets, not only are they incredibly durable they're also 100% waterproof! This range of shutters is ideal for high-humidity rooms such as bathrooms and kitchens, as well as children's play areas where knocks and bumps are likely to occur. Finished with stainless steel hardware that won't rust or corrode over time.

Fiji

Premium Hardwood

Our most versatile range of hardwood shutters. Its reduced weight makes it perfect for covering large window expanses and glass ceilings. It can also be crafted into any shape, it is available in a vast array of colours, and it's our only range to achieve stain and Osmo finishes. When stained or treated with an Osmo finish, Fiji shutters are made from Paulownia, a sustainable hardwood which reaches maturity in 7-10 years. Its distinctive grain is ideal if you love natural textures. Painted Fiji shutters are made from a mix of three premium hardwoods.

Portchester®

Portchester®
Aluminium Security Shutters

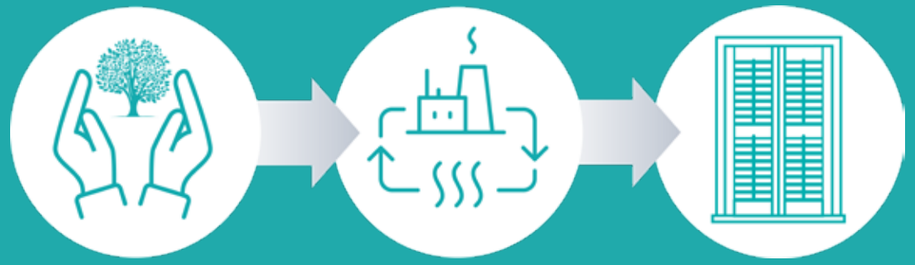
Aluminium

Made from architectural grade aluminium, Portchester® shutters have all the style and functionality of our wooden shutters with the additional advantage of intruder resistance. Safety features include a top and bottom guide system that prevents the shutters from being lifted out of their channels, and a patented strip-proof lock. Available with 89mm louvres, a choice of 4 paint colours and a custom colour option. Suitable for indoor and outdoor use.

SUSTAINABILITY

What is Sustainability? Sustainability or Corporate Social Responsibility (CSR) is a business model which takes account of the environmental, social, and economic impacts associated with business activities.

S:CRAFT are committed to reducing environmental impact and building resilient manufacturing processes throughout the production of our products, from sourcing, and manufacturing, to the finished product you see in your homes.



Sourcing

All the wood resources used to make the S:CRAFT shutter ranges have been sourced from responsibly managed forests with a robust chain of custody. S:CRAFT's wood supply chain is carefully managed in compliance with the United Kingdom Timber Regulation (UKTR) which ensures harvesting practices are legal, encourages sustainable harvesting practices and supports global forest governance.

The wood used to make Antigua is sourced from sustainably managed plantations in Australia, New Zealand and Chile, most holding FSC and PEFC forest management certifications. Sawn lumber, namely basswood, found predominately in Cuba and elements of painted Fiji is sourced from North American Hardwood mills under the American Hardwood Export Council regulations. The AHEC concluded that the mills' sustainability principles, largely based on the life cycle analysis of the wood went beyond the scope and technical requirements of FSC and PEFC.

Fiji-Stained Paulownia is grown in managed plantations throughout China. The wood is not cut from natural forests, and the trees are replanted as they are felled.

Manufacturing

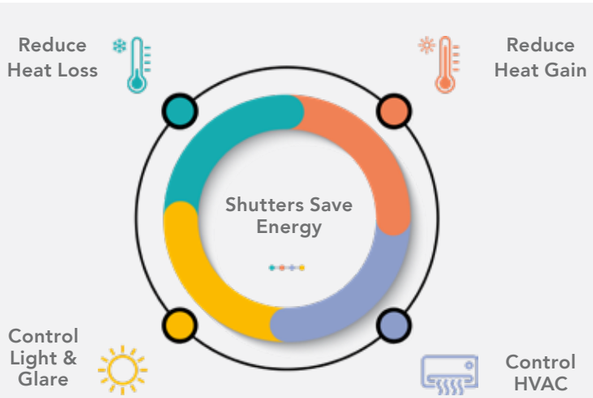
Our manufacturing partner in Asia, is the only Asian manufacturer to produce a CSR report. We work closely with them, to ensure we are here for people, for the planet. Why does a business focus on CSR? Not only does it improve efficiency and cut costs, but it also sustains the business into the future and ensures compliance.

How? By prioritizing key sustainability goals from sourcing to home, forests to your window!

Product

Our shutter ranges are fully compliant with REACH regulations. What is REACH? REACH stands for the Registration, Evaluation, Authorisation and Restriction of Chemicals. The overall aims of REACH are to: Provide a high level of protection of human health and the environment from the use of chemicals in products.

Not only are our products big on environmental safety and non-toxic, but they also exceed the most stringent international safety standards for Volatile Organic Compounds (VOC) and are CARB P2 compliant for off-gassing.



Energy Efficient

Reduce Heat Loss: Adding shutters to your windows adds another insulating barrier to your window.

Reduce Heat Gain: Shutters and blinds prevents overheating by reducing solar gain through the glass.

Control HVAC: Shutters are considered a passive cooling technique and are identified as non-energy intensive means of reducing or eliminating the need for Heating, Ventilation, and Air Conditioning units.

Control Light & Glare: Artificial lighting can be reduced by controlling amount of daylight with shutters.

Wood Stains & Osmo Finish

Wood stains and Osmo are available in our Fiji range. Stains allow the beautiful definition of the hardwood's natural grain to show through, giving a traditional look. Osmo is a combination of natural plant oil and vegetable wax, giving a textured and eco-friendly finish. With 18 stains and 6 Osmo finishes to choose from, you're sure to find the perfect shade to complement your colour scheme.

- Limed White
- Taupe
- Rustic Grey
- French Oak
- Oak Mantel
- Red Oak
- Rich Walnut
- Cherry
- Dark Teak
- Cordovan
- New Ebony
- Mahogany
- Dark Mahogany
- Old Teak
- Wenge
- Weathered Teak
- Black Walnut
- Matte Black
- White Matte - Osmo
- Silk Grey - Osmo
- Oak - Osmo
- Teak - Osmo
- Oak Antique - Osmo
- Granite Grey - Osmo

Painted Colours

Painted colours are available for all of our shutter ranges. Choose crisp contemporary whites or warmer shades for a more traditional feel. Each paint finish receives several coats and a final protective UV layer to limit fading caused by the sun. Choose from 30 colours, including a custom colour option for most of our ranges.

- Pure White
- Aura White
- Polaris
- Dover White
- Extra White
- Silk White
- Bright White
- Summer Haze
- Pearl
- Creamy
- Winchester White
- Chalk White
- Ivory Lace

- Magma
- Coltrane
- Officer
- Taupe Grey
- Sea Mist
- Platter
- Stone Grey
- Clay
- Anthracite
- Classic Black
- Custom Colour

Powder Coated

Powder coating is applied as a free-flowing dry form and cured under heat. This process forms a protective finish that is much harder than conventional paint. Powder coated colours are available for the Portchester® range of security shutters and are available in a choice of four colours.

- Prime White
- Satin White
- Light Grey
- Charcoal

POWERMOTION MOTORISED SHUTTERS

The ultimate luxury in window shutters: PowerMotion by S:CRAFT. The automated upgrade that lets you control your shutters remotely.

This time-saving extra lets you control your shutters via remote control, or independently via any iOS device, simply and effortlessly, at the touch of a button.

S:CRAFT's intelligent design stops the motors if anything blocks the motion of the louvres, making this a safe choice for younger children with inquisitive fingers.

Available in a wide range of styles and installation types; if you're looking for motorised shutters, PowerMotion is the perfect choice.

Full automation and control via the the free Norman iOS app

- ✓ Schedule open and close times
- ✓ Control shutters individually or in groups
- ✓ Check battery life
- ✓ Control shutters from anywhere in the world

Saving you time and effort

The perfect choice for larger installations and hard to reach areas where it's difficult to tilt the shutter louvres by hand.

Complete louvre control

Either use the easy-to-use remote control and open your louvres at the touch of a button or manually operate by hand if you prefer.

Efficient battery

Comes with a rechargeable lithium ion battery that can be charged via a USB cable. Battery life is enhanced with a dynamic solar panel that should last a year between full charges.

AUTOCLOSE CLOSES THE LOUVRES FOR YOU!

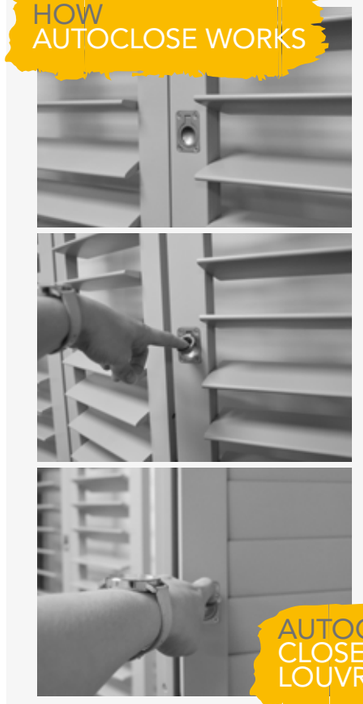
The AutoClose upgrade from S:CRAFT. The fully-integrated mechanism that closes the louvres, so you don't have to!

Ideal for shutters covering large expanses, such as room dividers, wardrobes and patio doors. Available in all our hardwood shutter ranges.

There's no need to manually close your shutters, simply use the convenient ring pull. AutoClose makes life that little bit easier.

Now you can save time, minmise effort and protect your louvres instantly with AutoClose!

HOW AUTOCLOSE WORKS



Locate the convenient ring pull on your shutter panel

Slowly pull the ring upwards with your finger until the louvres are fully closed

AUTOCLOSE, CLOSES THE LOUVRES FOR YOU!

Minimises effort

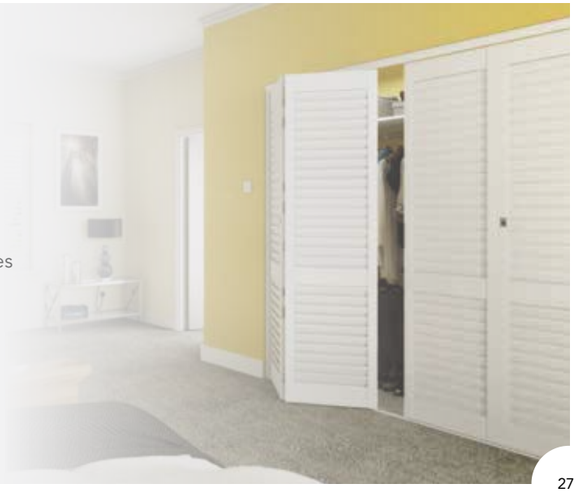
Designed for ease of use, this fully integrated upgrade option automatically closes the louvres safely and smoothly.

Saves you time and protect your louvres

Saving time when opening the panels, AutoClose reduces the chances of damaged louvres caused by over-enthusiastic operation.

Your style made-to-measure

Ideal for shutters covering large expanses. Available in louvre sizes: 63mm, 76mm, 89mm and 114mm.



OPTIONAL EXTRAS

Our shutters are so versatile, the possibilities are endless. Panels can be personalised to individual taste, which is why we provide several additional extras to add those finishing touches to your new shutters.

Shutter & Shade

Shutter & Shade is a solution that combines shutters with our room darkening honeycomb blinds. The pleated blinds sits snugly in a channel behind your shutters, virtually blocking out all external light.

Custom colour

If you're looking for a particular colour to match your design choices, but you can't find it in our existing range, our custom colour option allows you to personalise your shutters and achieve your perfect finish.

Hidden hinges

If you want to create a sleek and modern look, with clean lines, consider the option of a hidden hinge.

Hidden hinges are available in all our ranges, apart from Antigua and Portchester.

Silent tilt

Silent tilt is the shutter option that has no tilt rod on the louvres. A tilt rod is a vertical rod that is used to open and close the louvres. Silent tilt is a good choice for those who prefer the look of their shutters to be clean and unobscured.

Hardware

Explore our range of locks, bolts and handles. With so much choice, we're confident you'll find a style you like that's not only practical but adds extra finesse to your shutters.

Air freight

We appreciate that time is frequently a deciding factor when renovating your home, so we offer the choice of an air freight service. This optional extra ensures that your shutters are delivered by the quickest route, for those who do not wish to wait for their shutters to arrive by sea freight.

Fixed louvres

Fixed louvres are ideal for room dividers and wardrobe doors. This stylish option keeps your louvres in place so that you don't need to worry about moving them.
